

## Biz Briefs

### 2009 COMPENSATION SURVEY RESULTS NOW AVAILABLE: Information Technology and Engineering

Associated Industries has published results from our 2009 **National IT and Engineering Professional and Management Compensation Survey**.

With input from over 1,600 employers, ranked by US, region and city, the results of this survey provides compensation information for virtually any specialty job or career level. In addition, new jobs are

added as need, including the following new job titles:

- Disaster Recovery Specialist
- Information Systems Auditor
- End-user Computing Specialist
- Help Desk Support Services Specialist
- QA Analyst

This helpful Market Analysis Final Report is available in both CD and Book format with valuable data to help you gage salaries, bonuses, retention, pay trends and much more in today's unprecedented market.

Available only through Associated Industries, the fee of \$500 for members and \$750 for non-members can easily pay for itself. For more information, or to order, contact Bill Sweigert at 509.326.6885 or by email at [bsweigert@aiin.com](mailto:bsweigert@aiin.com).
